FAQ

What does the survey ask?

In addition to essential demographic information, the survey examines six values of maturing disciples:

- Relationship with God
- Biblical Community
- Redemptive Relationships
- Stewardship of Life
- Spiritual Gifts
- Personal Discipleship

How accurate are the results?

For the most accurate results, the survey is distributed anonymously either online and/or during a gathering. The data is centrally collected and summarized in a digital survey application. It uses a 10-point Likert scale with five questions for each value for cross-referencing and eliminating inconsistent responses.

How will I receive the results?

An Advancement Coach will provide the church leadership with a detailed analysis of the congregation's spiritual formation *strengths* and *deficits*. The Coach will also be available to assist leadership in identifying next steps for collective spiritual growth.
